ESI Peer Reviewer Name:	Peer Reviewer's Firm:	

	Plan is non-acc	ceptable if any * box is checked without explanation on plan or alternate	e solution	noted	l.		
LINE	CODE SECTION	REQUIREMENT	SHEET	ОК	NO	N/A	FFX
		COVER SHEET					
1	LDS Policy	Aug 2024 edition of cover sheet used			*		
		Plan Approval Information Table					
2	LDS Policy	Plan Approval Information completed (identification numbers,					
	LD3 Policy	approval dates and sheet numbers)					
3	LDS Tech Bulletin 23-06	Line 1: Concurrent processing indicated. Documentation of approval					
	LD3 Tech Bulletin 25-00	is included in the plan.					
		Line 4: Affordable dwelling unit (ADU) designation shown on specific					
4	112.1-5101.6.A	lots or units, except for multi-family (if entire project contains 50					
		units or more)					
	107-1-3	Line 13: Soils report requirement indicated if construction is					
5	112.1-8101.4.B(34)	proposed in class III or IVA soils or a dam is proposed requiring a					
	PFM 6-1605.1B & 2A	report per PFM Plate 48-6					
		Line 14: Limited soils report requirement is indicated if construction					
6	PFM 4-0206.5.A	is proposed in a IVB soil. Limited report included in the 1st					
		submission plan.					
7	LDS Tech Bulletin 23-06	Line 22/23: Zoning case number with approval date & sheet number					
	LDS Policy	provided, unless concurrent processing is approved					
8	LDS Tech Bulletin 23-06	Line 27: All interpretation letters for approved Rezoning Plan					
	LD3 Tech Bulletin 25-00	(RZ)included in the plan, unless concurrent processing is approved					
9	LDS Tech Bulletin 23-06	Line 27: All interpretation letters for approved Special Permit					
	LD3 Tech Bulletin 25-00	(SP)/Special Exception (SE) plat or Variance (VAR) included in plan					
	LDS Tech Bulletins 23-	Line 25: Clerk to BOS/BZA approval letter (with					
10	06 & 06-15	proffers/development conditions) to applicant included for RZ, SE or			*		
	00 & 00-13	SP unless concurrent processing was approved					
	112.1-8101.4.B(28), LDS	Line 26: Proffer and development conditions compliance narrative					
11	Tech Bulletin 17-02	submitted in the form of Proffer Matrix. The Proffer Matrix shall be					
	Teen banetin 17 02	emailed to <u>LDSPROFFERS@FAIRFAXCOUNTY.GOV</u>					
		Proffers/development conditions that are specific to the site are					
12	LDS Tech Bulletin 17-02	addressed. Triggers and associated plan & sheet numbers provided.			*		
12	LDS Teen Builetin 17 02	Each portion of each proffer is separately addressed. (For more					
		detailed directions see Note 1)					
	LDS Tech Bulletin 23-06	Line 35: All approved waivers/modifications and waiver/modification					
13	LDS Policy	requests are listed, including the ones approved with the zoning			*		
		application.					
		Zoning Requirements Tabulation				, , , , , , , , , , , , , , , , , , ,	
	LDS Policy	Zoning Requirements Tabulation filled in correctly. If plan is					ļ
14	112.1-8101.4.B(13)	associated with a zoning application, the tabulation shows what was			*		ļ
	112.1-8101.4.B(28)	approved (provided) with the zoning application or any					

LINE	CODE SECTION	REQUIREMENT	SHEET	ОК	NO	N/A	FFX
		interpretation as requirement. Appropriate zoning					
15	LDC Delieu	application/documents referenced.					
	LDS Policy 112.1-8101.4.B(13)	Line 8: Minimum yard lines shown and labeled on site layout Line 9: Floor Area Ratio (FAR) matches throughout the plan.					
10	112.1-0101.4.0(13)	Layout, including clearing limits, is in general conformance with the					
		Zoning Plan, otherwise an interpretation or coordination with Zoning					
		Evaluation Division is submitted (if approved, include in the plan).					
		Proposed construction limits and retaining wall heights do not					
17	Zoning Plan	exceed from what is shown on the approved Zoning Plan.			*		
	LDS Policy	Dimensions for setbacks are shown at the same location as on					
		Zoning Plan and are equal or exceed the Zoning Plan setback					
		requirements. For phased projects, running tabulation is included to show					
		compliance with Zoning Plan.					
	101-2-1(1)(A)	If subdividing more than 50 lots, and there is no development plan,					
18	101-2-1(1)(A)	the Preliminary Plat (PL) is approved and valid (PL is optional for					
10	Code of VA §15.2-2260	subdivisions involving 50 or fewer lots.)					
	•	Site Plan (SP) Tabulation		1			
10	LDC D-li-	Site Plan (SP) Tabulations filled in correctly. Information shown is			*		
19	LDS Policy	consistent with the plan.			*		
	112 1 9101 4 0/12\	Line 3: Site and building proposed uses indicated. Proposed use is a					
20	112.1-8101.4.B(13) 112.1 Article 4	by right use within the zoning district unless an RZ, SE or SP or					
	112.1 Al ticle 4	concurrent processing has been approved.					
21	112.1-8101.4.B(13)	Line 5: Number and type of units (if townhouses or multifamily or					
	i i	condominium) shown					
22	112.1-8101.4.B(14)	Line 10: Building height shown. Building height calculations are					
	LDS Tech Bulletin 19-01	provided for proposed single family attached dwellings.					
23	112.1-8101.4.B(13)	Line 11: Number of floors shown					
	112 1 0101 4 0/16\	Lines 13 to 17: Required and proposed number of parking and					
24	112.1-8101.4.B(16) 112.1 Article 6	loading spaces shown and match parking/loading tabulation.  Parking/loading tabulation shows parking rate per each use and the			*		
	112.1 Altitle 0	minimum number of spaces required vs. provided.					
		Other Cover Sheet Requirements				<u> </u>	
	ESI Fairfax Expedited	The cover sheet has a verifiable digital signature on the seal from					
25	Review Tech Bulletin	each professional			*		
	112.1-8101.4.B(1), B(2)	DPE certificate signed if DPE plan.					
26	PFM 9-0202.2C	Fire Marshal notes, data filled in					
27	PFM 10-104.1A	Sanitary sewer information filled in					
28	PFM 12-0308.4A	Tree Preservation information filled. If "yes", deviation request is					
		included in a letter format in the landscape plan					
29	LDS Policy	Potential for wetlands filled in					
30	LDS Policy	Information Regarding Activities in a Resource Protection Area filled in					
31	LDS Policy	Stormwater Information filled in			*		
		Vicinity map shows sidewalk/trail maintenance responsibilities for					
32	PFM 8-0201.6	proposed (VDOT, County or privately maintained)					
33	112.1-8101.4.B(4)	Vicinity map shows street names and route numbers for adjoining			*		
		streets.			*		
34	LDS Policy	Tax map reference number(s) filled in correctly			*		
35	112.1-8101.4.B(5)	Name, contact information and address of the owner and developer filled in					
36	LDS Policy	Magisterial district shown and is correct					
	,	Certificate signed by the surveyor or engineer setting forth the					
37	112.1-8101.4.B(7)	source of title of the owner of the site and the place of record of the					
		last instrument in the chain of title		<u> </u>			
38	112.1-8101.4.B(8)	Soils map shown, with site identified. Soils map is based on current			*		
50	112.1 0101.7.0(0)	County Soils Map.					

LINE	CODE SECTION	REQUIREMENT	SHEET	ОК	NO	N/A	FFX
39	112.1-8101.4.B(8)	Soil data chart filled in per " <u>Description &amp; Interpretive Guide to Soils in Fairfax County</u> "					
40	112.1-8101.4.B(18) PFM 10-0301 & 305.1	Solid waste statement filled in. Trash and recycling containers are shown and labeled on the site plan.					
41	112.1-8101.4.B(27)	Owner/developer wetlands permits certification signed			*		
42	LDS Policy	Sheet index and sheet titles match					
		PUBLIC STREETS		1			
43	112.1-8101.4.B(12)	Road name and route number shown for existing state-maintained streets shown					
44	112.1-8101.4.B(12) LDS Policy	Street widths, pavement, curb type and right-of-way shown for existing and proposed streets			*		
45	VDOT Road Design Manual Appendix F	Right of way, driveway entrances, intersections, medians, curb, or edge of pavement shown and labeled on both sides of existing roadways. Limited Access labeled, if applicable.					
46	112.1-8100.7.E(3)	Vehicular travel lanes, services drives, driveways, or other required access connections to adjoining properties are proposed or service drive/travel lane waiver is approved					
47	PFM 7-0101.2 VDOT Road Design Manual Appendix A-1	Curve data shown for new streets and conform with shown street category					
48	PFM 7-0107.5A & 5B	Stop or yield signs shown at all intersections					
49	PFM 7-0201.1C PFM 7-0304.13	All proposed street construction is within existing or dedicated street right-of-way					
50	PFM 7-0301.1A & 1B PFM 8-0101.8	Curb-cut ramps provided where required (at site entrance curb returns, along accessible routes, at major crosswalks, HC accessible parking spaces, etc.). Curb cut ramps are entirely within right of way if VDOT maintained					
51	PFM 7-0303 VDOT Road Design Manual App. F Section 4	Type, width, percent grade, and throat length of entrance(s) shown. Curb radii labeled. Review for possible design waivers/design exceptions.					
52	PFM 7-0304	Profile shown for all proposed streets including widening and turning lanes on existing streets. Elevations, percent grade, culverts, storm/sanitary sewer, and utility crossings shown on street profile. Existing centerline profiles is shown for 200 feet minimum distance to ensure a proper grade tie when a proposed street is an extension of or connects with an existing street.			*		
53	PFM 7-0304	Centerline stationing shown in plan view for existing and proposed streets					
54	PFM 7-0305 112.1- 5100.2.D(4)(c) VDOT Road Design Manual Appendix A(1)/B(1)/B(2)/F 24VAC30-73-80.A 24VAC30-73-90.A	Sight distance plan and profile shown. For intersection sight distance, sight triangle is clear of obstructions, including landscaping and parked vehicles, among others. Sight distance easement exists or proposed where the sight line leaves the right of way. Sight distance easement is shown on layout, grading, tree preservation and landscape plans.			*		
55	PFM 7-0306.6B VDOT Road Design Manual Appendix A-1	For proposed streets, typical section with dimensions, street category, and design speed are provided			*		
56	VDOT Road Design Manual Appendix F	For existing streets posted speed is provided					
57	VDOT Road Design Manual Appendix F Section 3	Turn lanes are proposed where required or a Design Waiver has been approved.					
58	VDOT Road Design Manual App. F Section 3	Length of all existing and/or proposed turn lanes and tapers shown and conform to standard, or a Design Waiver has been approved.					

LINE	CODE SECTION	REQUIREMENT	SHEET	ОК	NO	N/A	FFX
59	VDOT Road Design Manual Appendix F Section 2	Distance shown to nearest intersection or median break in each direction on existing divided roadways					
60	VDOT Road Design Manual Appendix F Section 2	Distance shown between centerline of all existing or proposed intersections or driveways. Access Management spacing requirements are met, or an Access Management Exception (AME) has been approved.					
61	VA Administrative Code 24VAC-92-All Sections	Profile of any proposed stub street is extended beyond property line to indicate future constructability					
62	VDOT IIM-LD-55 PFM 7-0301	Curb ramps provided wherever a proposed or existing pedestrian access route crosses a curb. One curb ramp provided in each direction of intersection crossings.					
	VDOT IIM-LD-55	Curb ramp spot elevations provided to confirm ramp slopes, gutter pan transitions, etc.					
64	VDOT Policy	Latest version of VDOT general notes provided					
65	101-2-2(2) (Townhomes only)	Street names are shown for proposed streets.					
66	VDOT Road Design Manual, Appendix A(1), Sections 1 & 2 LDS Policy	Typical sections for existing roads are provided where sidewalk or shared use path is proposed along the existing road. Sidewalk easement is proposed for sidewalks outside of ROW.					
67	VDOT Road Design Manual, Appendix A(1), Sections 1 & 2	Sidewalk/shared use path width, width of buffer strip between road and sidewalk/shared use path, and width of maintenance strip between sidewalk/shared use path and ROW are dimensioned					
		PRIVATE STREETS					
68	112.1-5107.3.A(3)	Private streets in a residential development that is to be owned and maintained by a nonprofit organization does not exceed 600 feet in length unless approved by the Director			*		
69	112.1-8101.4.B(12)	Deed book and page number shown for County maintained right-of ways and private ingress-egress easements for private roads			*		
70	112.1-8101.4.B(16)	Parking/loading spaces are delineated with dimensions					
71	112.1-8101.4.B(23) PFM 7-0306.14	Plans proposing private streets contain the applicable full statement as required by the referred code to advise that the streets will not be maintained by either the State or the County.					
72	PFM 7-0402.2B PFM 7-0402.4B PFM 7-0402.5B PFM 7-0402.6 PFM 7-0403 VDOT Road and Bridge Specifications	Pavement design/typical section shown for private streets, parking surface, and pipestem driveway. Pavement material specifications are in accordance with VDOT standards.					
73	PFM 7-0402.2	Private streets for townhouses, patios and garden courts, geometric design is in accordance with PFM Plate 4-7 (TS-5A). 2' minimum strip between back of curb and edge of sidewalk, or if sidewalk is adjacent to the back of curb, it is 6' wide. Roll-top curb is not allowed.			*		
74	PFM 7-0402.3	Single family condominium and single-family residential developments with five or less lots, the geometric design meets pipestem driveway standards.					
75	PFM 7-0403.1A VDOT Road Design Manual Ch 2D-10	Private driveway entrances on curb and gutter streets conform to VDOT standards. CG-9D is preferred.					
76	PFM 7-0403.1A VDOT Road Design Manual	Private driveway entrances on streets with no curb and gutter conform to VDOT Standards (PE-1)					
77	PFM 2-0208.20 PFM 7-0602.4 USBC 1106.1	Accessible parking spaces, related access aisles, ramps and curb ramps, railing, slopes, surface treatments, signs and accessible routes provided. Van accessible spaces identified. Parking tabulation shows			*		

LINE	CODE SECTION	REQUIREMENT	SHEET	ОК	NO	N/A	FFX
		accessible parking requirements referenced to USBC. Accessible spaces are provided for each parking facility (surface and structural) separately.					
		STREETLIGHTS & SITE LIGHTING					
78	PFM 7-0802.3	Existing and proposed utility poles and streetlights shown and labeled			*		
79	PFM 7-0802.3	Streetlights are proposed along all existing and proposed state roads providing frontage to the site					
80	PFM 7-0804, Plate 28-7, 29-7, 30-7	Proposed luminaire style, pole type, pole placement, bracket lengths and mounting heights are shown and labeled.			*		
81	PFM 7-0805.5B LDS Tech Bulletin 14-07	For proposed non-standard streetlights, lighting computations are provided and sealed by a lighting professional.			*		
		EROSION AND SEDIMENT CONTROL		ı	ı		
82	PFM 2-0203.1C PFM 2-0208.12	Limits of clearing and grading shown and includes all work to be done (offsite, utility extensions, outfalls, etc.) and matches between grading, erosion and sediment control, landscape plans			*		
83	LDS Tech Bulletin 11-08	Priority Rating Form for E&S control is shown, and physiographic province is correctly identified			*		
84	LDS Policy	Completed certified E&S Control Checklist provided			*		
85	PFM 12-0305.1A VESCH Uniform Coding System	Erosion & sedimentation controls and tree protection and safety measures identified					
86	9VAC25-875-560 (MS-2)	Soil stockpiles and borrow areas are stabilized OR protected with sediment trapping measures					
87	PFM 11-0104.1 PFM 11-0303.4A	Two-phased E&S Plan provided for erosion and sedimentation control. The E&S narrative includes site specific sequence of construction in each phase.					
88	PFM 11-0104.1 9VAC25-875-560 MS-4)	The Phase 1 E&S Plan proposes to install controls needed with minimal clearing. Sediment basins and traps, perimeter dikes, sediment barriers and other measures intended to trap sediment are proposed in Phase 1.			*		
89	VESCH 3.13 PFM 11-0106.2D	Sediment trap computations provided (Pipe outlet required if drainage is greater than 1 acre)			*		
90	VESCH 3.14 PFM 11-0106.2C	Sediment basin calculations provided			*		
91	PFM 11-0104.3 Tech Bulletin 22-04 (seeding guidelines)	Region specific temporary and permanent seeding tables provided					
92	LDS Policy	Drainage divides are shown correctly, perpendicular to contours and enclosed. The outfall for each drainage area is labeled. Offsite contours are shown to justify drainage divides.					
93	PFM 11-0106.2D	The minimum length for a temporary gravel construction entrance is dimensioned 75 feet on the detail. If wash rack is proposed, the source of tire wash water is identified.					
94	VESCH	Positive drainage provided into all E&S control measures, including diversion dikes.					
95	VESCH 3.05 (SF) VESCH 3.07 (IP) VESCH 3.09 (DD) VESCH 3.13 (ST) PFM Table 11.1	Drainage divides shown for E&S measures that have drainage area limitations. Drainage areas do not exceed ¼ ac/100 ft for SF, 1 acre for IP, 5 acres for DD and 3 acres for ST. Drainage divides for SSF are only required when it needs to be demonstrated that concentrated flow to SSF does not exceed 5 cfs.			*		
96	SDID Policy	Perimeter controls are shown outside of the graded area to accommodate grading operation.					
97	PFM 12-0305.1B	All erosion and sediment controls and tree protection devices are placed within the area to be disturbed.			*		
98	SDID Policy	Storm drain inlet protection measures shown on VESCH Plates 3.07-2, 3.07-6 and 3.07-7, which completely block the drain throat or entrance are not proposed.					

LINE	CODE SECTION	REQUIREMENT	SHEET	ОК	NO	N/A	FFX
99	SDID Policy	SSF adjacent to Floodplains, RPA, and steep slopes.					
100	PFM 6-1303.9.B	E&S Control measures are shown on E&S Phase 1 Plan around the areas of proposed infiltration facilities.					
101	VESCH 3.01	Provide safety fence where no other perimeter controls are proposed.					
		DRAINAGE					
102	PFM 6-0202.2	Drainage system honor natural divides for both concentrated and non-concentrated stormwater runoff leaving the site unless a written justification is provided and approved by the Director.					
103	PFM 6-0202.4	Concentrated runoff discharge leaving the site shall not aggravate or create a condition where an existing structure under an approved building permit floods. If such a structure exist, detention for the 100-year storm event is provided.			*		
104	PFM 6-0202.5 PFM 6-0204.1.B.5	No concentrated surface water discharged offsite without easements unless the discharge is into a natural watercourse, or other appropriate discharge point.					
105	PFM 6-0202.6	Sheet flow into lower lying properties: Pre-and post-development runoff computations provided to demonstrate that increase in peak flow runoff would not cause or aggravate drainage problem on the downstream properties. Description is included in the outfall narrative.			*		
106	PFM 6-0905.4 PFM 6-0902.2.G PFM Plate 62-6	Storm sewer profile is provided showing existing and proposed grade, depth of cover and HGL.					
107	PFM 6-0902.2P	If storm sewer is close to any building, a loading plane diagram is provided.					
108	PFM 6-1108.1	Quantities of surface runoff greater than 2 cfs or crossing more than 3 lots is conveyed in a closed drainage system for lot size less than 18,000 SF.					
109	PFM 6-1501.2.E & F PFM 6-1502.2 PFM 6-1502.3	Location and approximate extent of the overland relief paths are shown in proximity of buildings. For the path, using overlaying arrows is suggested. Where the flow path is near buildings, shading or other suitable see-through graphics are suggested to show the extent, and to demonstrate that no building is flooded by the 100-year flow. Weir calculations shown at critical high points where buildings might be impacted by back water. Calculations provided assuming complete failure of storm sewer system.			*		
110	101-2-2(25)(A)	The extent of any dam break inundation zone of an existing state- regulated impounding structure is shown and labeled with the name and state-issued identification number of the impoundment.					
111	LDS Policy	Storm sewer or storm drainage easement is provided for all residential developments					
112	VDOT Drainage Manual Chapter 9 Section 4	Flow arrows are provided for both existing and proposed storm pipe					
113	112.1-8101.4.B(19) 124.1-3-2.C.8(e)	Sufficient information (i.e., topography, structures, etc.) on adjoining parcels to assess the impacts of stormwater from the site on these parcels			*		
		STORMWATER MANAGEMENT					
		Stormwater Management Narrative (if plan is subject to 124.1-4)			ı	, ,	
114	124.1-3-2.C.4	A general description of the proposed stormwater management facilities (including both quality and quantity control).			*		
115	124.1-3-2.C.4	Description of the mechanism through which the facilities will be operated and maintained after construction is complete.					
116	124.1-4-4.D	Description of how detention requirements for the 2 and 10-year storms are met.					
	124.1-4-1	Description of how water quality control requirements are met.			*		
118	124.1-4-5	Reference to the letter of nutrient credit availability, if applicable.					

LINE	CODE SECTION	REQUIREMENT	SHEET	ОК	NO	N/A	FFX
119	PFM 6-0204	Description of downstream receiving system and extent of					
113	111010-0204	downstream review					
120	124.1-4-4.A & B	Adequacy conclusion on channel and flood protection requirements			*		
		for both natural and manmade conveyance systems.					
121	124.1-4-4.E	Evaluation of sheet flow and its impact on adjacent properties.					
		Stormwater Management Narrative (if plan is subject to 124.1-5)		1			
122	124.1-2-2 or 124.1-2-3	Demonstrating compliance with the time limits provision is provided					
		or a SWOD letter is included A general description of the proposed stormwater management					
123	124.1-5-3	facilities (including both quality and quantity control)					
		Description of the mechanism through which the facilities will be					
124	124.1-3-2.C.4	operated and maintained after construction is complete					
	124.1-5-6.B	Description of how detention requirement for the 10-year storms are					
125	PFM 6-1301.5	met.					
406		Description of how water quality control requirements based on the					
126	124.1-5-4.A & B	time limits provision are met.					
127	DEM 6 0204	Description of downstream receiving system and extent of					
127	PFM 6-0204	downstream review.					
128	PFM 6-0202.6	Evaluation of sheet flow and its impact on adjacent properties.					
		Stormwater Management Computations (For plans subject to					
		Article 4 and Article 5)				1	
	124.1-4-4.D, F, & G OR						
	124.1-5-3.F, 124.1-3-						
	2.C.6, 124.1-4-6.A	Hydrologic analysis pre and post development conditions, such as all					
129	PFM 6-0802.1	runoff computations (e.g., Tc, CN, C, etc.) using NOAA Atlas 14 Type C					
	PFM 6-0803.2	Distribution					
	PFM 6-0803.4						
120	PFM Table 6.12	Allowable galacter and a constability of					
	PFM 6-1300	Allowable release rate computations					
131	PFM 6-1301.5	Inflow and routed hydrographs for design storms Outlet design computations including stage discharge curve and					
132	PFM 6-1301.7	stage-storage curve					
		Storm sewer computations, hydraulic grade line computations, storm					
133	PFM 6-0905	inlet design computations. Storm systems should be designed for the					
	PFM 6-1109	10-year storm event.					
134	PFM 6-1200	Culvert analysis computations to demonstrate capacity adequacy					
	124.1-3-2.C.6	Hydraulic computations for natural conveyance system with cross					
135	PFM 6-0204.1.B.5	sections to verify capacity and non-erosive velocity

		If management of Traffic Plans are required by VDOT, they should be					
219	VDOT Policy	included with this submission for preliminary VDOT review. Explain if					
		the answer is "No" or "N/A":					

## **NOTES:**

## 1) Applicant's Response shown in "Compliance Method" Column in Proffer/Development Condition Compliance Matrix

- Describe how each proffer/development condition is addressed. All responses shall be specific to the project and demonstrate how each proffer/development condition is met (partially or completely).
- Do not fill in "Acknowledged". All acknowledgements happened at the time of proffer/development condition negotiations when the Applicant agreed with all proffers.
- Do not repeat the proffer in Compliance Method column. Instead, describe how the plan has addressed the requirements of the proffer/development condition partially or entirely. <u>Please use specific plan references (i.e. MSP, SP, PI, etc.), as multiple plans may be used to achieve compliance.</u>
- Provide separate compliance method for each subsection of each proffer/development condition.
- Do not use any "may" or "shall" in your compliance description. At this stage, all requirements should be either met, or non-applicable.
- Associated site plan # and sheet number should be listed in the correct column.

## 2) Readability

A readable plan is necessary for reviewers to conduct a thorough review and for site inspectors to enforce the approved plan during construction. Factors that diminish readability include, but are not limited to: overlapping lines, labels or information; insufficient distinction among line types or line weights; inaccurate or missing legend; heavy lines or shading that obscures underlying information; misplaced or missing leaders; lines or features without labels; scale too small to clearly depict all information; existing features indistinguishable from proposed work; and unreadable text (smaller than 0.1 inch, blurred, obscured by linework, overlapping text).
